Story

From Blogger to Island Expert: The Journey of Holidaygogogo

Every story starts with pure passion. An electronic engineer dealing with complex data, Simon Lee yearns for the islands' sea breeze and leisurely rhythm.

In 2010, Simon decided to channel his love for islands into a series of blog posts and photographs. Through his blog, www.holidaygogogo.com, he began documenting his island explorations and sharing his unique experiences and travel tips.

As his blog posts gradually grew, they attracted countless island enthusiasts, just like footprints on the beach. Fascinated by his travels, readers began asking him for details about island travel.

These inquiries eventually led to the establishment of Holidaygogogo Tours. In 2013, Simon and his partner, Miss Tan Chin Teng, embarked on a new journey to transform their hobbies and experiences into professional services, providing travellers with unique island travel experiences.

Pre-arrival Arrangements

Comprehensive Itinerary Planning for a Worry-Free Journey

We attach great significance to pre-arrival arrangements to ensure that all are fully prepared before our customers depart, thereby enhancing the overall travel experience with the following specific content:

Itinerary Confirmation: Verify the itinerary in detail, including the number of people, date, transportation, nature of travel (company tour, family tour, honeymoon trip, friends trip), etc.

Transfer Service: Arrange transfers to and from the airport or various destinations to ensure customers experience a smooth arrival and return.

Accommodation Reservation: Confirm accommodation arrangements in advance and handle special requests such as room types, bedding preferences, etc.

Activity Reservation: Pre-book local activities and attractions to ensure a smooth and memorable trip.

Travel Information: Provide relevant travel information, such as local cultural guidelines and emergency contact information.

Proprietary System

Enhance Service Excellence with Our Proprietary System

We have developed a robust digital management system to help us render more efficient services. This exclusive system maintains a complete track record of each customer's trip, allowing precise and detailed arrangements at every stage.

Comprehensive Process: The system covers all stages from package purchase to the end of the journey, ensuring that every detail is complete and nothing is overlooked.

Precise Management: Each customer's itinerary details are integrated into the system to ensure accurate arrangements and minimize errors.

Efficient Workflow: The system operates based on the standard operating procedure (SOP), with customer service personnel executing every detail according to system prompts.

As a service quality monitoring tool, this system improves service efficiency and ensures that customer experience aligns with expectations, allowing you to enjoy your journey with peace of mind.

Bookings Advantages

We Have the Advantage of Priority Booking and Room Reservations

Having been involved in island tourism for an extended period, we have established close partnerships with approximately 60% of the island hotels nationwide, following rigorous screening, to offer our customers a high-quality accommodation experience.

These hotels offer us special privileges such as priority booking and room reservations. Even when the tourist season is approaching, we still have a greater chance of securing rooms for our customers—an advantage that is challenging for most travel companies to achieve.

This advantage results from our extensive focus on island tourism and the vital competitive edge gained through our close collaboration with hotels.

Strategic Partners

Partnering with Renowned Hotels to Provide You with Quality Accommodation

As a legitimate travel company registered with MOTAC and MATTA, we have signed cooperation contracts with many renowned island hotels across Malaysia. These meticulously selected hotels meet our high standards and provide customers with a premium accommodation experience.

Here is a list of some of the cooperating hotels:

- ☆ Rawa Island Resort
- ☆ Redang Laguna Resort
- ☆ Perhentian Island Resort
- ☆ Summerbay Lang Tengah Resort
- ☆ Sipadan Kapalai Dive Resort
- ☆ Mabul Water Bungalow
- ☆ Aman Tioman Beach Resort
- ☆ Berjaya Resorts & Hotels

Itinerary Assurance

Implementing a Comprehensive Itinerary Check Mechanism for Complete Trip Assurance

We have established a rigorous itinerary-checking mechanism to ensure all travel plans are meticulously arranged and validated. From purchasing the package to one week before departure, we conduct three detailed checks to confirm that every detail is accurate.

First Check: Before receiving the payment, we will verify your itinerary, including accommodation, transportation, boat tickets, etc., to make sure the details are all correct.

Second Check: After receiving the payment, we will recheck the information to confirm that the package you purchased is consistent with our arrangements.

Third Check: One week before departure, we conduct a final check to ensure all details are accurate and send you the complete itinerary information.

Through these three checks, our itinerary assurance mechanism enhances service accuracy and provides comprehensive protection for your trip.

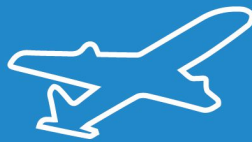

Integrity & Reliability

Verify First, Pay Later: Safeguard Your Trip

We always maintain a transparent service by advising customers to verify their booking status with the relevant hotels before payment. Customers should provide their accommodation dates and confirm whether our company has made a reservation. Once the accommodation is confirmed, they can proceed with payment and travel arrangements.

**Your dream vacation is just one step away.
